San Marcos Growers COVID-19 Coronavirus Response

Tuesday March 17, 2020 (revised at 2PM)

Due to the COVID-19 Coronavirus epidemic, on Monday March 23rd and until further notice, we will no longer allow vendors, customers or any non-employee visitors to come into the San Marcos Growers nursery offices or go out into our production fields. We will continue to take orders by phone and through email and will pull orders for pickup and delivery of plants where this is possible, but customers will not be able to go into the fields to pull their own plants as is normally allowed. We feel it prudent to take this closure action for the safety of our employees and for those who would be coming into the nursery. We also continue to ask that all customers and our employees heed the advice of local, state and federal guidelines.

Please practice:

Social distancing
- Those in high risk groups (advanced age or serious long-term health problem) should not come into the nursery
- Do not shake hands or touch any other customers or nursery employees
- Try to remain 6 feet or more from any other person whenever this is possible

The regular washing of hands with adequate soap and water
- Hands free hand wash stations have been set up at the entry to the nursery office and employee breakrooms and we encourage all to wash their hands regularly, particularly after touching any hard surface objects not known to be clean
- After washing use a disposable paper towel to turn off water faucets or open bathroom doors.
- Clean personal items such as pens, phones and keys with disinfectants

Avoid touching your face at any time

Do not come into the nursery if sick
- We encourage customers to call in or email orders to be pulled.
- Any customer or employee noted to be sick will be asked to leave
