We celebrated our 30th year as a nursery last year and now start the climb towards our next decade in business in a year that has seen good rainfall and the promise of a strengthening economy. To do our part to stimulate an economic boom, we are, for the second year in row, releasing an annual catalog that offers our customers many new plants but no overall price increases. Having received the winter rains, we look forward to a glorious spring full of wildflowers but must remember that California's water resources are still stretched thin and that we must not return to water wasting gardening practices of the past. The sustainability of our beautiful landscapes will still depend on making the appropriate plant choices. To this end, this year we have again added to our ever increasing palette of plants that do well within our mediterranean climate, with little or no supplemental irrigation. This includes the addition of many new succulent plants. Of the 118 new plants added this year, nearly half are succulents in such familiar genera as Aeonium, Agave, Aloe, Crassula, Echeveria, Sedum and Senecio. We have also expanded our line of plants from mediterranean climate regions and in particular those that are California native plants. In an effort to further promote our native plant offerings, we are working with Carol Bornstein, author and native plant authority, on new descriptive pages about California native plants for our website; these pages can be easily accessed by clicking on the new "Go Native" link from our home page. Lists of the native California plants and succulents that we grow and a complete list of all of our "new" plants can be found in the back of this catalog.

We look forward to working with all of our customers to make 2010 another excellent year for horticulture!

## Garden Maker Concrete Planters

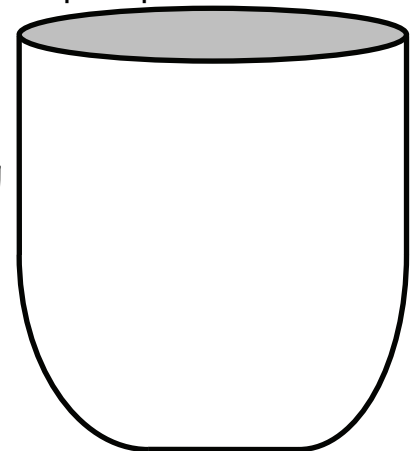

San Marcos Growers manufactures Garden Maker Concrete Planters. Pots are cast in a natural concrete color. The cement is stabilized, making them ideal for water garden use. A water feature using these planters is set up in the nursery and there are many of these pots planted with our plants situated throughout the nursery gardens. Photos of these pots are available on our website at [www.smgrowers.com/products/gardenmakerpot.asp](http://www.smgrowers.com/products/gardenmakerpot.asp).

## 2010 New Plants Program

San Marcos Growers has a history of making new plant introductions into the nursery trade. The following organizations and people have been responsible for many of these new plants. For more information and for a listing of other partners that have been instrumental with our new plant introduction program, please visit our New Plant pages on our website at [www.smgrowers.com/info/plantintroductions.asp](http://www.smgrowers.com/info/plantintroductions.asp).

### Koala Blooms

We are proud partners of the UCSC Arboretum Koala Blooms Australian Plant Introduction Program and currently grow the following plants that have been introduced by this program:

Adenanthos cuneatus 'Coral Drift'	Chorizema 'Bush Flame'	Darwinia citriodora 'Seaspray'
Aphanopetalum 'Gossamer Wings'	Chrysocephalum 'Silver and Gold'	Grevillea lanigera 'Coastal Gem'
Boronia clavata 'Heather Wand'	Correa alba 'Western Pink Star'	Grevillea nudiflora 'Medusa'
Boronia 'Jack Maquire's Red'	Correa pulchella 'Pink Eyre'	Grevillea 'Poorinda Signet'
Brachysema 'Bronze Butterfly'	Correa pulchella 'Pink Flamingo'	Grevillea synapheae 'Picasso'
Callistemon 'Cane's Hybrid'	Correa 'Ray's Tangerine'	Philotheca myoporoides 'Galaxy'
Chamelaucium ciliatum 'Scaddan'	Correa reflexa 'Cape Carpet'	Thomasia solanacea 'Velvet Star'

### Carol Bornstein

#### Santa Barbara Botanic Garden

Carol Bornstein, during her tenure at the Santa Barbara Botanic Garden, coordinated the plant introduction program and personally selected several new cultivars of California native plants. We are pleased to be able to offer many of these plants and to continue to support the Santa Barbara Botanic Garden and Carol's ongoing efforts to promote the sensible use of our native plants. Carol brought our attention to the following native plants:

Arctostaphylos 'White Lanterns'	Heuchera 'Canyon Pink'
Artemisia californica 'Canyon Gray'	Hyptis emoryi 'Silver Lining' *
Ceanothus 'Wheeler Canyon'	Iris PCH hybrid 'Canyon Snow'
Eriophyllum nevinii 'Canyon Silver' *	Leymus condensatus 'Canyon Prince'
Erysimum insulare	Salvia brandegei 'Pacific Blue' *
Heuchera 'Canyon Belle'	Verbena lilacina 'De La Mina' *
Heuchera 'Canyon Duet'

## Terms and Conditions

### Terms

All orders will be C.O.D. upon delivery unless a prior account has been established. We do accept Visa, MasterCard and American Express. Credit is available to established businesses based on the following terms:

- 1) All accounts are due and payable 30 days after the date of invoice.
- 2) Overdue accounts will be subject to a service charge of 1.5% per month or 18% per annum.
- 3) San Marcos Growers retains the right to deny further credit on overdue accounts.

### Conditions

This price list cancels all previous editions and quotations and is intended for the trade only. All prices are quoted F.O.B. our nursery. Prices are subject to change without notice.

### Non-Warranty

San Marcos Growers will exercise care to have all merchandise true to name, and makes no further warranty, expressed or implied, as to the variety or productivity of any nursery stock sold. Under no circumstances will San Marcos Growers be held liable for more than the invoice price at the time of purchase. No liability is assumed by the Seller for the delay or failure to deliver as a result of conditions and all instances beyond control. If the Buyer does not accept the goods on these terms, they are to be returned to the Seller immediately.

### Hold Orders

Orders for future delivery or pick up will be held and guaranteed for no longer than 2 weeks.

### Claims

All claims for any reason must be made immediately upon the receipt of goods. If an error has been made, please notify us promptly and we will make an adjustment. We do not guarantee the longevity of plants and will only accept returned goods for full credit when notified within 3 days after delivery.

### Returned Stock

Accepted returned plants within 30 days of invoice or shipping date will be subject to a **20% restocking fee**. No return nursery stock will be accepted after 30 days. Plants removed from their pots or otherwise planted will not be accepted for return. All requests for San Marcos Growers to pick up plants must be authorized by a San Marcos Growers Sales Representative. Information needed for a pick up order to be issued includes the invoice number, the quantity, type and size of the plant material to be picked up and the reason the plants are to be returned. The drivers will not pick up plants without prior authorization.

### Certified Nursery

San Marcos Growers is certified and inspected by the California Department of Agriculture. Our California Nursery Stock Certificate number is **D-6799**. This assures that plant material is free from injurious plant pests and disease symptoms and may be released for shipping and planting in California without further inspection unless order is blue-tagged. San Marcos Growers is in compliance with California Department of Agriculture and blue tags orders containing Glassy-winged Sharpshooter hosts. Our compliance number is **GWSS-42004**. All blue tag orders must be inspected by your county agricultural department upon delivery. Please consult your agricultural department officials for local restrictions. Regulations have been enacted by the USDA to prevent the spread of the Sudden Oak Death (SOD) pathogen, *Phytophthora ramorum* and the Light Brown Apple Moth (LBAM). We are inspected regularly by our local Agricultural Commissioner's office and not this pathogen nor this insect pest found on our property. We are authorized to ship plant material with interstate certified under APHIS 7CFR301.92 with the California compliance number: **42D6799001** and certified under the Federal Domestic Quarantine Order for Light Brown Apple Moth with compliance number: **CA-42QLBAM00003569**

### Deliveries

Regular deliveries are scheduled along the north/south coast from San Diego to southern Sonoma County. Please consult the chart on the next page regarding shipping rates for your area. Drivers are instructed to deliver plant material only as far as they can safely drive the delivery truck and to place plants no further than 15 feet away from the truck. San Marcos Growers will give an estimated time of arrival (ETA) for deliveries but they are, as implied, only estimates and we will not be held responsible for any costs incurred by receiver for orders that are not delivered at the time that has been estimated. On deliveries where boxed trees or cement pots are to be delivered, on-site help will be required to help remove these items from the truck. Prices in this catalog for 36 inch boxes are F.O.B. - if delivered they are subject to an additional delivery fee surcharge. The delivery of 36 inch box trees will require that a fork lift or tractor be present at the delivery site.

### Truck Size Limitations

We use tractor trailer rigs for most of our out of town deliveries. They are 13½ ft tall by 45 ft long with 3 axles and they are heavy. Our drivers are instructed to use their best judgment about whether or not a delivery can be made. Please let us know if there are any potential difficulties for our delivery trucks at the delivery site.
